

Drift Pendant 15"

ALLIED MAKER

CEI-191

DESCRIPTION

The Drift Pendant is a statement piece defined by a smooth, aerodynamic taper that flows seamlessly from the hang tube into the center of the fixture. This continuous curve creates a refined transition and distinctly streamlined silhouette, giving the form a quiet sense of motion and ease. At its core, the spun form resolves into a precisely machined solid aluminum body wrapped in hardwood veneer, introducing warmth and material contrast. Below, a generously scaled hand-slumped glass diffuser emits a soft, even ambient light that enhances the pendant's calm and cohesive presence. The combination of streamlined geometry, rich natural materials, and warm illumination gives Drift a sculptural quality that feels both refined and effortless

MATERIALS

Brass, Glass, Wood Veneer

METAL FINISHES

Available in All Standard Metal Finishes

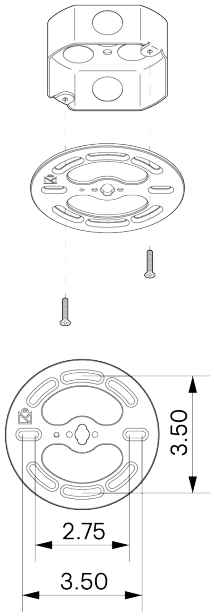

GLASS FINISHES

Matte White, Opal

WOOD FINISHES

Available in All Standard Wood Finishes
