Monoscope Flush Mount 18"

CEI-187

DESCRIPTION

The Monoscope collection is an expression of simple yet richly textured geometry. Hardwood veneer is wrapped over an Aluminum LED core and diffused by borosilicate glass, and brass fittings. These materials are brought together by a skilled artisan to form an incredibly well diffused and bright lighting fixture. Monoscope is not only beautiful but extremely functional. Its light fills the room thanks to the disc shaped shade that illuminates brightly on both sides; bouncing against the ceiling while providing direct illumination below.
