

DESCRIPTION

The Nautilus edition reimagines our Monoscope Sconce as part of a new signature series—an elevated collection distinguished by refined materials and expressive design.

Expanding on the timeless geometry of our signature Monoscope collection, Nautilus is transformed through sculptural treatments inspired by the organic spirals of the sea. Domed, rippled blown-glass diffusers radiate a soft, shifting light, while concentric brass accents echo and celebrate the fluid, nautical form.

This series represents the pinnacle of our craft—where elevated finishes, bold textures, and luminous details come together to create a fixture that feels as much a work of art as it is a source of light. The Nautilus Sconce stands as a statement piece, bringing depth, movement, and enduring elegance to any space.
