

COOPERAGE CABINET

A striking interplay of white oak and roasted oak creates a natural striped effect through its construction. Bold finger joints in each corner fold the pattern into a harmonious, sculptural form. A polished stainless steel base subtly mirrors its environment, giving the cabinet an ethereal quality as if it is floating in space

Material & Finish

Available in alternating white oak/roasted oak, sapele/roasted oak, hard maple/roasted oak and alternating sapele/hard maple. Also available in single species non-striped versions in bleached hard maple, hard maple, lightened white oak, white oak, walnut and ebonized walnut

F—S

Special Notes

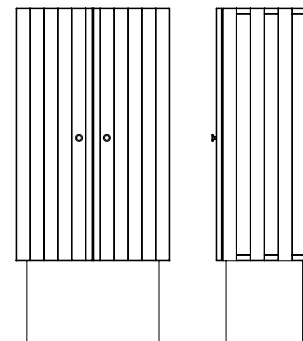

There are four leveling feet concealed within the polished stainless base

Lead Time

16 - 18 Weeks

Starting List Price

\$29,200
