

WOOD FINISHES STRATA STORAGE

All wood is responsibly forested domestic hardwood lumber. Sourced with integrity and purpose, great care is taken in selecting the finest quality and clearest material and finishing it to best suit each piece. Variations in color, grain, and small knots are embraced in each design, as part of the natural beauty of the piece.

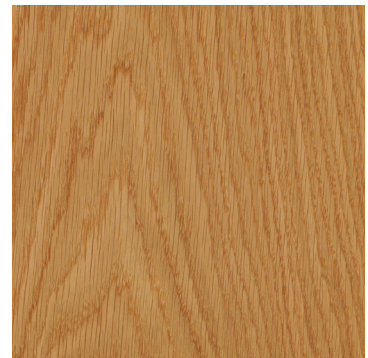

We have developed our standard finishes to offer a wide tonal range using proven techniques that complement the natural quality of the wood while providing lasting surface protection. Custom finishes may be available upon request, however, this will add additional time and cost to your project.

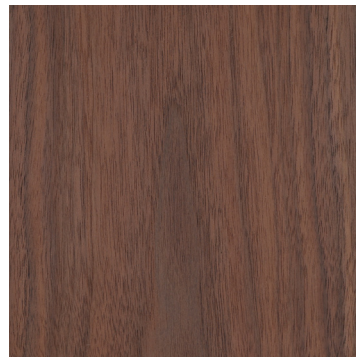

BLEACHED MAPLE

HARD MAPLE

WHITE OAK

WALNUT

EBONIZED WALNUT

**METAL FINISHES
STRATA STORAGE**

We offer a range of metal finishes including plating, powder coating and hand applied patinas. Please note that hand applied finishes have natural variation in color and character so images shown are for reference only. This digital representation is not a substitute for a physical color or finish sample. Custom colors and finishes are available upon request, however, this may add additional time and cost to your project.
