

PLANAR SIDE TABLE
7 CM

A sculptural side table composed of three intersecting planes of travertine. Large square connections visible on the table surface speak to its simple wood joinery inspired slotted construction

Material & Finish

Available in roman, silver and red travertine. Stone is a natural material that varies in color and character. Sealed with protective matte finish stone sealant

Special Notes

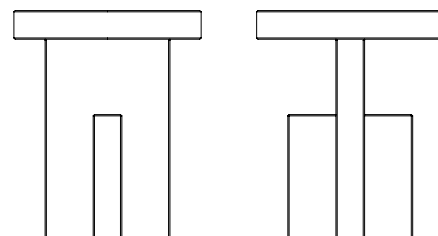

Parts are fixed together with stone epoxy. Crating is required for shipment. Felt pads on the base to protect the table and flooring from scratching
