Description

TINSEL is a compact yet expressive fixture. Referencing both early-American tin candle holders and contemporary Mexican metalsmithing, with their flat cloud-like scalloped silhouettes, Tinsel distills a timeless geometric motif into a robust presentation of three-dimensional form. The fixture is cast in aluminum, and finished in 9 possible colorways. A lyrical expression of rounded forms, the fixture can be utilized as both a wall sconce or flush mount ceiling fixture, and as a singular expression or in multiples. ADA Compliant.
