

HANDMADE
IN U.S.A.

Concentric 10" Alabaster

WAC-066

The form of this handcrafted dome is echoed in its grooves. The shade is carefully shaped on the lathe to achieve a pleasing curvature. The geometry of the fixture, particularly the concentric circles, create a topographic texture in the wood that is highlighted when illuminated. Made from naturally translucent Alabaster stone and brass, this fixture can mount to the wall or ceiling.
